# DJI AGRAS SPRAY DRONES

## DJI AGRAS T50

The AGRAS T50 is built upon the success of the AGRAS T40, bringing many of the same features and benefits. Additionally, it includes added solenoids for improved flow rate and enhanced radar for better terrain follow.

## DJI AGRAS T40

Get started fast with the AGRAS T40 – an intuitive drone with the best-in-class app and remote control system. This drone brings a 30% payload increase from the AGRAS T30, providing you with the opportunity to spray more acres per hour.

## DJI AGRAS T30

The AGRAS T30 takes aerial spraying efficiency to new heights. Built with the ability to tackle long, straight fields or small, curvy fields this drone is capable of providing elite performance in all situations.

## DJI AGRAS T10

Grab n' go with the AGRAS T10 – the drone designed for solo operation. The small, lightweight frame allows for convenient transportation and easy set-up. It's a highly compact-yet-powerful aerial solution for fields of all sizes.
